

ABDUL RAHEEM

Junior Developer

Mumbai, India 400027 | +91 9834030102 | abdulraheemsayyed22@gmail.com

CAREER SUMMARY:

A dynamic full-stack Flutter developer with a year of dedicated Flutter experience and a strong background in diverse languages like Swift, Go, Kotlin, and more. As a quick learner and tech enthusiast, I'm passionate about coding and innovation. I have led a team of interns, built apps from scratch, and even tackled complex algorithms.

WORK EXPERIENCE:

Product Manager

Vue Technologies | Jan 23' - Jun 23'

- Developed product pricing and bundling strategies.
- Conducted user interviews and surveys to gain insights into customer behaviors and preferences, resulting in a 23% increase in customer satisfaction.
- Developed a Transactional reminder feature, based on the customer requirement survey.
- Implemented Object Box for faster CRUD operations and better storage management.

Team Lead Flutter Developer

Vue Technologies | Aug 22' - Dec 22'

- Implemented a REST API integration that dynamically retrieved and synchronized data from the server to the mobile application
- Developed a Complex Transactional SMS algorithm for the mobile application that increased user engagement and satisfaction by 34%
- Improved team morale and motivation through positive reinforcement and team-building activities
- Led a team-building exercise that increased team morale and resulted in a positive learning environment (30m max meeting)

Intern Flutter Developer

Vue Technologies | Jun 22' - Aug 22'

- Developed the app UI/UX from a figma design.
- Implemented firebase services in the project.

RELEVANT PROJECTS:

OneDeal

B2B Selling App | Jan 23' - Aug 23'

- Worked on building the MVP of the app for a US based company using Flutter, Supabase, a Mobile application that connects business owners, business buyers in one place.

Lane Dane

FinTech App | Jun 22' - Dec 22'

- Developed a mobile application for android using Flutter, Firebase, MySQL, Php, NodeJs, ObjectBox. The app also contained a complex SMS fetching algorithm, that scans all the user sms to read and find transactional sms, from which it reads the data like Name, Account Number, Date, Amount, Credit/Debit.

EDUCATION:

Diploma - Computer Engineering

2020 - 2023 | Vidyalankar

Polytechnic

SKILLS:

Programming Languages: Dart, Java, C/C++, Go, Javascript, Typescript, C#, Python, SQL, Kotlin, Swift

Frameworks: Flutter, Svelte
